Aircraft camouflage is the use of camouflage on military aircraft to make them more difficult to see, whether on the ground or in the air. Given the possible backgrounds and lighting conditions, no single scheme works in every situation. A common approach has been a form of countershading, the aircraft being painted in a disruptive pattern of ground colors such as green and brown above, sky ...

While French fighter aircraft of the early period of World War II are well known and the subject of many

books, the bombers used by the French Air Force in this period are up to now not well documented in English.
